

## Safety Data Sheet

### 1.PRODUCT AND COMPANY IDENTIFICATION

|                  |                                                         |
|------------------|---------------------------------------------------------|
| Product Name:    | Pyrene                                                  |
| Compound ID:     | AG000YR2                                                |
| CAS Number:      | 129-00-0                                                |
| Identified uses: | Laboratory chemicals, manufacture of chemical compounds |
| Company:         | Angene                                                  |
| Phone:           | 81777290                                                |

### 2.HAZARDS IDENTIFICATION

#### GHS Classification in accordance with 29 CFR 1910 (OSHAHCS)

Acute toxicity, oral,(Category 4), H302

Skin corrosion/irritation,(Category 2), H315

Serious eye damage/eye irritation,(Category 2A), H319

Specific target organ toxicity, single exposure; Respiratory tract irritation,(Category 3), H335

For the full text of the H-Statements mentioned in this Section, see Section 16.

Pictogram

Signal Word warning

Hazard statements

H302 Harmful if swallowed

H315 Causes skin irritation

H319 Causes serious eye irritation

H335 May cause respiratory irritation

Precautionary statements

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes.Remove contact lenses,if present and easy to do. Continue rinsing.

Hazards not otherwise classified (HNOC) or not covered by GHS - none

### 3.COMPOSITION/INFORMATION ON INGREDIENTS

|                    |                |
|--------------------|----------------|
| Chemical Name:     | Pyrene         |
| CAS Number:        | 129-00-0       |
| Molecular Formula: | C16H10         |
| Molecular Weight:  | 202.2506 g/mol |

### 4.FIRST AID MEASURES

#### Description of first aid measures

##### General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.Move out of dangerous area.

##### If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

##### In case of skin contact

Wash off with soap and plenty of water. Consult a physician.

##### In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

### 5.FIREFIGHTING MEASURES

#### Extinguishing media Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

#### Special hazards arising from the substance or mixture

Carbon oxides, nitrogen oxides (NOx), Hydrogen bromide gas

### 6.ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid dust formation. Avoid breathing vapours, mist or gas. Ensure adequate ventilation.

Evacuate personnel to safe areas. Avoid breathing dust. For personal protection see section 8.

### 7.HANDLING AND STORAGE

#### Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust and aerosols.

Provide appropriate exhaust ventilation at places where dust is formed

Normal measures for preventive fire protection.

For precautions see section 2.

#### Conditions for safe storage, including any incompatibilities.

Keep in dry area.

Room Temperature.

#### Specific end use(s)

Apart from the uses mentioned in section 1, no other specific uses are stipulated

### 8.EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters.

Contains no substances with occupational exposure limit values.

#### Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

#### Personal protective equipment

##### Eye/face protection

Face shield and safety glasses Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

##### Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

**Body Protection**

Complete suit protecting against chemicals, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

**Respiratory protection**

For nuisance exposures use type P95 (US) or type P1 (EU EN 143) particle respirator. For higher level protection use type OV/AG/P99 (US) or type ABEK-P2 (EU EN 143) respirator cartridges. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

**Control of environmental exposure**

Do not let product enter drains.

**9. PHYSICAL AND CHEMICAL PROPERTIES**

Information on basic physical and chemical properties

|                      |                   |
|----------------------|-------------------|
| Appearance / Form:   | solid             |
| Odor:                | no data available |
| Odor Threshold:      | no data available |
| pH:                  | no data available |
| Melting point:       | 148 °C            |
| Boiling point/range: | 404°C at 760 mmHg |
| Flash point:         | 210 °C            |

**10. STABILITY AND REACTIVITY**

|                                    |                                              |
|------------------------------------|----------------------------------------------|
| Reactivity:                        | no data available                            |
| Chemical stability:                | Stable under recommended storage conditions. |
| Possibility of hazardous reactions | no data available                            |
| In the event of fire:              | see section 5                                |

**11. TOXICOLOGICAL INFORMATION**

|                                                                                                                           |                                                                                                                                                         |
|---------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Acute toxicity:                                                                                                           | Classified based on available data. For more details, see section 2                                                                                     |
| Respiratory or skin sensitisation                                                                                         | Classified based on available data. For more details, see section 2                                                                                     |
| Germ cell mutagenicity                                                                                                    | Classified based on available data. For more details, see section 2                                                                                     |
| Carcinogenicity:                                                                                                          |                                                                                                                                                         |
| IARC:                                                                                                                     | No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. |
| ACGIH:                                                                                                                    | No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.            |
| NTP:                                                                                                                      | No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.                 |
| OSHA:                                                                                                                     | No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.             |
| Additional Information                                                                                                    | no data available                                                                                                                                       |
| To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated. |                                                                                                                                                         |

**12. ECOLOGICAL INFORMATION**

|                                    |                                                                                            |
|------------------------------------|--------------------------------------------------------------------------------------------|
| Toxicity                           | no data available                                                                          |
| Persistence and degradability      | no data available                                                                          |
| Bioaccumulative potential          | no data available                                                                          |
| Mobility in soil                   | no data available                                                                          |
| Results of PBT and vPvB assessment | PBT/vPvB assessment not available as chemical safety assessment not required/not conducted |
| Other adverse effects              | no data available                                                                          |

**13. DISPOSAL CONSIDERATIONS**

|                         |                                                                                                                                                                |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste treatment methods | Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material. |
| Contaminated packaging  | Dispose of as unused product.                                                                                                                                  |

**14. TRANSPORT INFORMATION**

|          |                    |          |                    |                       |
|----------|--------------------|----------|--------------------|-----------------------|
| DOT (US) | UN number: UN 3077 | Class: 9 | Packing group: III | Proper shipping name: |
| IMDG     | UN number: UN 3077 | Class: 9 | Packing group: III | Proper shipping name: |
| IATA     | UN number: UN 3077 | Class: 9 | Packing group: III | Proper shipping name: |

**15. REGULATORY INFORMATION**

|                                |                                                                                                                                                                                   |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| SARA 302:                      | No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.                                                                           |
| SARA 313:                      | This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313. |
| SARA 311/312 Hazards           | Acute Health Hazard                                                                                                                                                               |
| California Prop. 65 Components | This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.                                          |

**16. OTHER INFORMATION**

Full text of H-Statements referred to under sections 2 and 3.
